With lockdown lifting and businesses opening their doors to colleagues, do you know if your communication systems currently work or need modifications to return to use? Are your teams ready and tailored to support the new 'open'?

Utilizing our extensive operational and service experience, we can have technology checked, serviced, and updated.

When your staff return, they are prepared and ready to support the new normal.

At Unified-Support we think differently, our ethos is to charge for support as you need it when you need it, tailored to your needs – you get enhanced support at a fraction of the traditional cost.

How does it work?

- You pay a basic fee based on the number of spaces required to check and the depth of the support audit.
- Unified-Support collaborate with you to build an agreed test and audit program in advance to ensure we meet your needs.
- Unified-Support dispatch a specialist team to your location when you need it and conduct a full end-to-end check, making repairs before occupation - avoid embarrassing failures.
- Unified-Support will work with you to ensure your support and team are in place and ready for business.
- A detailed report will be issued following attendance, giving you the confidence users will be able to connect and be supported seamlessly, putting the client first and in command – be prepared for the future!
